

PALACE FESTIVITIES

Preparations for the Laying
of the Corner Stone.A Description of the Marble Block—Line
of March.

Cotton Palace headquarters present a very lively appearance just now. Preparations for the coming celebration are about completed and everything points to success.

Secretary Plunkett reports collections very good, and the fear of tight collections, predicted by some, has failed to materialize, and occasionally, new subscriptions are received and more have promised to take stock.

In addition to the prizes offered for the best display in the Cotton Palace parade on next Friday, a beautiful pin or charm in the shape of a wheel has been purchased and is on exhibition at the jewelry store of E. W. Mitchell. It will be awarded to the one having the prettiest decorated bicycle in the parade.

Vice President Moore, in conversation with a News reporter this morning said: "Letters have been received from a large number of Masons throughout the state expressing their intention of being present and participating in the corner stone ceremonies. An invitation is extended everybody to put a decorated wagon, carriage or buggy in the procession. Ladies, especially, are invited to decorate their private conveyances and take part as they have the same opportunity of winning the prize, as others, and a number of ladies are already preparing displays. By some error, or misadventure, it has been stated that no advertisements would be allowed. That is a mistake, for while this is not a trades display, no objection will be made if any of the business men desire to decorate their delivery wagons and put their names on them, or any motto they choose to select for the occasion."

The official programme will be announced tomorrow.

The Cotton Palace Corner Stone.

The corner stone of the Texas Cotton Palace is about completed. It is an excellent piece of work and a beautiful stone, being pure Italian marble.

On one side is the inscription, "The Texas Cotton Palace, Erected 1894." Underneath, are the names of the officers of the association. On another side are the names of the directors.

This corner stone is the work of Mr. Harry Adams, formerly with G. W. Gooch & Co. of this city, and whose ability as an artist is well known all over the state.

The artistic work is of a splendid finish and it will be quite an ornament.
